Dear ImGui concept board · v4 lean · stock style + 3 custom widgets · panel survey, ONI-style colony sim

PALETTE

D9D2B4 F4EED6 FBF7E6 2B221C

F2B90F 2F5F9E E2622B 5E984A

Panel, control, cream, ink, safety, blue, signal, moss. Panels sit one step dimmer than controls. Headings: Big Shoulders Display. Body: Pixelify Sans.

DEPTH SPEC · NO BEVEL

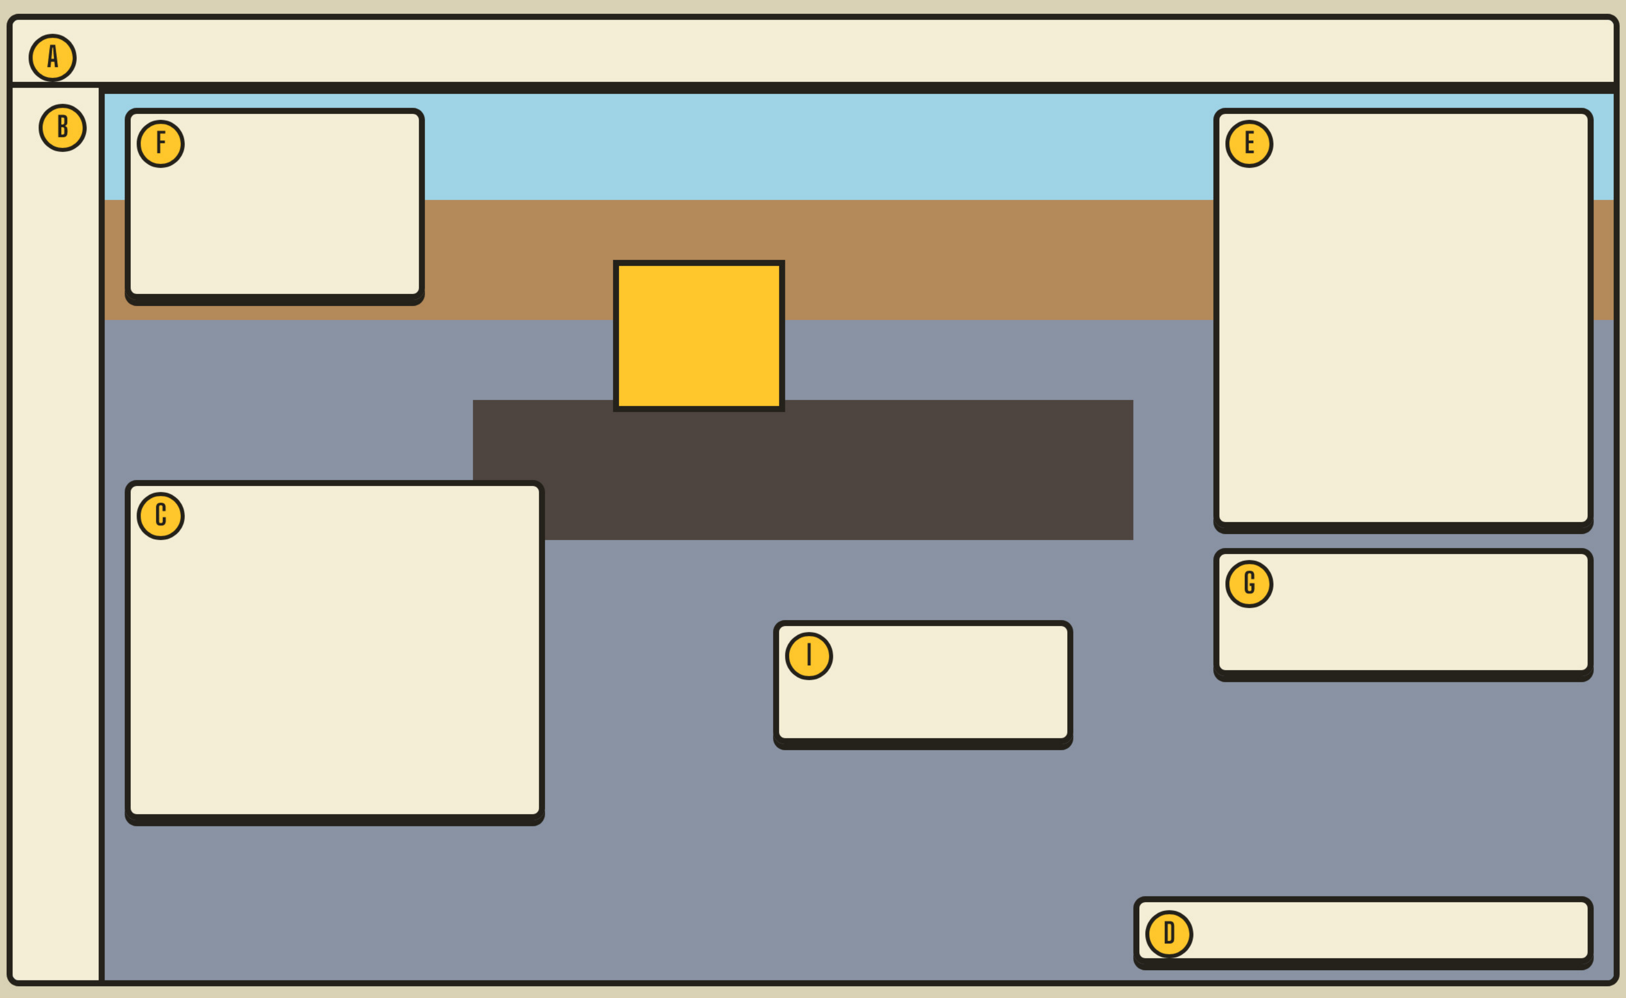
Raised Pressed Field

Depth comes from three cheap things: panels dimmer than controls, a flat 3 px ink outline, and a 3 px ink ledge under buttons (a second rounded rect). Pressed drops the face onto the ledge. No bevel, no drop shadow.

ICONS · FONT AWESOME FREE 7.3 SOLID

Real glyphs from the fa-solid-900 font (OFL), codepoints via IconFontCppHeaders. Ink by default, yellow bg when active.

GLOBAL LAYOUT · PANEL MAP



- A Top ribbon: clock, sp management
- B Tool rail: build, dig, c deconstruct, mop,
- C Build flyout: categor materials
- D Overlay palette and
- E Inspector drawer f thing
- F Colony status: vita diagnostics
- G Alert stack, click t
- I Tool options ticket

NOT IN THE MAP: FULL SCREENS

Pause-friendly modal windows, opened from the ribbon (A):

Research tree · Schedule · Skills · Priorities · Consumables · Vitals table · Reports · Codex · Menu

They may cover the world because the game is paused or slowed when they open.
